Introduction

The **eChallenges e-2007** Conference takes place 24 – 26 October in The Hague, Netherlands. This is the seventeenth in a series of annual conferences supported by the European Commission, which bring together over 650 delegates from leading commercial, government and research organisations around the world to bridge the Digital Divide, by sharing knowledge, experience, lessons learnt and good practice.

Thematic areas addressed in the Conference Programme include Networked Enterprises, eGovernment and eDemocracy, Technology Enhanced Learning, Digital Content, Collaborative Working Environments, eHealth, GRID, Smart and Virtual Organisations, Mobility & Security and Identity Management.

The reputation of the **eChallenges** Conference Series is based on its international perspective and its focus on high quality papers, discussion and networking. Opening and closing plenary sessions feature keynote government, business and research speakers sharing experience, insight and challenges for the future. Thematically focused parallel sessions provide coherence to a programme featuring an invigorating mix of business and government case studies, technical, legal and policy papers and interactive workshops.

eChallenges e-2007 will feature a series of special tutorials presented by European Commission officials on participation in Framework Programme 7 (FP7) focusing on Technology Enhanced Learning, Digital Libraries, Software and Services and Networked Enterprise and RFID. European research activities are structured around consecutive multi-annual Framework Programmes. FP7 sets out the priorities - including the Information Communication Technologies (ICT) Research Theme - for the period 2007 - 2013. ICT is open to international co-operation with the aim to join forces for addressing major challenges, where significant added value is expected to be gained from world-wide R&D cooperation.

The Community Building goals of **eChallenges e-2007** are to facilitate international research cooperation and successful exploitation of research results, to promote knowledge sharing between commercial, government and research organisations, to share experiences about the current state of global eAdoption at sectoral, national and regional levels, to support International Cooperation and open up the European Research Area (ERA) to the rest of the world.

Who will you meet at e-2007?

"eChallenges e-2005 was a success largely due to the ability of the eChallenges Consortium to attract major global players in ICT related applied R&D and formulate a program rich in content, touching the cutting edge of R&D issues and focusing on the most important future trends, while insisting on high level academic performance as manifested in the excellent conference proceedings and documentation. For my colleagues in the Government of Slovenia, for the Slovenian research community and related businesses, the event was very valuable."

Dr. Jure Zupan, Minister for Higher Education, Science and Technology, Slovenia

The **eChallenges** Conference Series attracts policy makers, practitioners and researchers from leading commercial, government and research organisations around the world. Participants include Ministers, Director-Generals, Vice-Presidents, senior & middle managers, professors & graduate students, project managers, software engineers and researchers.

eChallenges e-2007 provides a prestigious international forum to increase awareness of exploitable ICT research results and applications, whether funded privately or publicly. The Conference Exhibition provides an opportunity to showcase research results and applications through technology demonstrations and posters.

The eChallenges Community is open, inclusive and welcoming, providing an excellent networking environment to discuss problems and new ideas, share knowledge and experience, and obtain feedback from potential users.

The **eChallenges** Conference Series also provides a unique opportunity to identify partners and opportunities to co-operate in international research projects co-funded by the European Commission under the ICT Programme of FP7, as well as discussing proposal ideas with European Commission officials representing different units from DG INFSO.

The Venue

The **eChallenges e-2007** Conference & Exhibition takes place in the World Forum Convention Center, which is located at Churchillplein 10, The Hague. Delegates can get to the Convention Centre by public transport using Tram 1, 17 or 10.

Media Partners

eChallenges e-2007 Media Partners include:

eStrategies

Parliament Magazine and TheParliament.com

eP Market Intelligence

ICT Results

If you are also interested in becoming a Media Partner, please contact the Conference Secretariat.

The Programme

The 3-day Conference Programme features an invigorating mix of business and government case studies, technical and policy papers and interactive workshops. As well as opening and closing Plenary Sessions, delegates may participate in almost 80 thematically focused parallel sessions featuring different aspects of Networked Enterprise, eGovernment and eDemocracy, Technology Enhanced Learning, Digital Content, Collaborative Working Environments, eHealth, GRID, Smart and Virtual Organisations, Mobility and Security and Identity Management. Session Chairs will ensure active discussions and facilitate delegate participation and networking.

The conference programme is complemented by a demonstration and exploitation focused Exhibition and social events including a **Networking Cocktail Reception** kindly sponsored by the Municipality of The Hague (24th October) and a **Gala Dinner** kindly sponsored by the Ministry of Economic Affairs (25th October).

The programme is subject to change, and the **eChallenges e-2007** Organising Committee reserves the right to alter the contents, venue and/or speakers.

Networking Support

Networking is a key feature of the **eChallenges** Conference Series, and is facilitated in a number of practical ways. Paper and workshop sessions are designed to maximise knowledge sharing by providing time for interactive discussions during the Conference Programme itself. Coffee and lunch breaks take place in the Exhibition area to maximise exposure for technology demonstrations and posters, and to facilitate further discussion following paper and workshop sessions. Social events are designed to facilitate informal discussion.

A number of dedicated networking areas are provided at the venue to facilitate spontaneous meetings by small groups. Finally, the **Delegate Showcase** on the **eChallenges** portal (www.eChallenges.org) allows registered delegates, speakers & exhibitors to publish their own short profile (including research and commercial interests and a photograph), to facilitate networking before, during and after the Conference.

Cyber Café

e-2007 delegates may avail of the printing and Internet facilities provided by the **eChallenges** Cyber Café. Make last minute changes to your conference presentation, follow up immediately on business, research and cooperation opportunities identified through networking at the conference, and keep in touch with colleagues, family and friends.

Security, Health and Safety

Please wear your name badge for all **e-2007** activities, as it is your identification and allows you access to all Conference facilities. Unfortunately, conferences provide a tempting target for thieves, so please take care of bags, personal computers and other personal belongings.

The Organisers cannot accept any responsibility for losses incurred, or for personal health and safety. Delegates should ensure they have personal health insurance and take the usual care when exploring the City of The Hague. If you or your partner have any special needs or requirements, please contact the Conference Secretariat well in advance of the event.

Hotel Accommodation

The Conference Organisers have negotiated special B&B rates at the Conference Hotel (**Golden Tulip Bel Air Hotel**), **Dorint Hotel**, **Ibis Schevingen** (fully booked) and **Badhotel Schevingen**. The Bel Air is 5 minutes walk from the Convention Centre. The Ibis and Badhotel are 10 minutes away on a direct tram line (Tram 1).

By staying in one of these hotels, you will maximise networking opportunities with other conference delegates, presenters and exhibitors.

eChallenges e-2007 delegates are strongly recommended to book their accommodation online early, as The Hague is very busy the week that the Conference takes place. While the Conference Organisers will try to accommodate delegates' first choice, rooms will be allocated on a first-come, first-served basis. More information is available on the **eChallenges** Portal (www.eChallenges.org).

Networking Reception

The Organising Committee are pleased to announce that a **Networking Cocktail Reception** sponsored by the Municipality of The Hague will be held in the Exhibition area in the Convention Centre on Wednesday 24 October from 18:30 - 20:00. This will provide delegates with the opportunity to network with Exhibitors and peers.

Gala Dinner

The Organising Committee are pleased to announce that a **Gala Dinner** sponsored by the Ministry of Economic Affairs will take place on Thursday 25 October in the Knights Hall, 19:00 for 19:30. Tickets for the Gala Dinner are restricted due to available space, and assigned on a first-come, first-served basis.

It is necessary for all delegates and Accompanying persons to confirm participation at both social events as part of Online Registration to secure tickets.

The Hague

The Hague is a world class seat of government with an intimate and accessible nature. With a population of 500,000 and a very large green belt, everywhere in the city is very close using the excellent public transport infrastructure, which has over thirty different tram and bus lines as well as a fleet of taxis.

As well as having many cultural and historical sights, The Hague has a vibrant cafe society and excellent shopping facilities that will keep Accompanying Persons busy during **eChallenges e-2007**, before joining conference delegates for social events on Wednesday evening and Thursday evening.

Transport

The Hague is easily accessible from the rest of the Netherlands and Europe, by car, train, airplane and ferry. The Hague is situated about one hundred and fifty kilometres from Germany, less than one hundred kilometres from Belgium and twenty minutes from the ports of Rotterdam and Hook of Holland, with ferry services from the UK every day.

The Hague is easily accessible by air via either Amsterdam's Schiphol airport, which is only 30 minutes direct train journey or Rotterdam airport. Trains from Schiphol airport to The Hague run at least twice per hour and cost €7.00 one way. The train station is directly outside the Arrivals Terminal at Amsterdam Airport and it is possible to buy the train ticket prior to leaving the Arrivals area or in the main concourse of the train station.

Finally, The Hague has two main train stations. Trains from Utrecht and Germany arrive at Central Station, while trains from Amsterdam, Rotterdam, Belgium and France (including a Thalys service from Paris) arrive at Hollands Spoor Station.

Local transport links to other nearby cities including Delft and Rotterdam are very good and "National Strippenkaart" can be used in The Hague or indeed anywhere across the Netherlands. The number of ticket strips to be stamped depends on the number of zones being crossed. While the "National Strippenkaart" of 15 or 45 strips offer the best value for money, two or three zone tickets can be bought from drivers and day tickets are also available allowing unlimited travel within certain zones.

Major Places of Interest

The Hague has more than thirty museums, enough to keep all culture vultures entranced, with choices ranging from Dutch Masters, The Hague School and Contemporary Art. Visit the Mauritshuis to enjoy masterpieces by Rembrandt van Rijn, Johannes Vermeer, Jan Steen, Frans Hals and Paulus Potter. The Mesdag Museum, Gemeentemuseum and Bredius Museum are essential visits for art lovers.

Scheveningen, which is very close to the World Forum Convention Centre is well worth a visit, with over 45 Aquariums featuring sea life from around the world. Madurodam, the world famous miniature city, is also 5 minutes drive from the Convention Centre. The Exhibition at the Rijksmuseum on Court Road covers the period from the beginning of the Dutch Republic up to the present day, while the Escher Museum showcases the fantastic world of the famous Dutch graphic artist.

Sponsorship Opportunities

e-2007 offers a variety of Sponsorship Opportunities to enhance your organisation's image with the international ICT research community. Prominent notice will be given to Sponsors on the Conference Portal, in the Exhibition area, promotional e-mails and press releases, together with other benefits and promotional opportunities.

Major Sponsors for **e-2007** include the Dutch Ministry of Economic Affairs, the Municipality of The Hague, Hewlett-Packard, KPN and ENISA. Other Sponsors include SURFnet, SARA and LogicaCMG. **eChallenges e-2007** is also Supported by the European Commission.

Technical Co-Sponsors include IEEE Region 8, IEEE Benelux Joint Chapter on Communications & Vehicular Technologies, IEEE Spain Computer Chapter, IEEE UKRI Computer Chapter and IEEE Control & Communication (Ireland) Joint Chapter.

Previous Sponsors include the European Commission, Generalitat de Catalunya, Ajuntament de Barcelona, Municipality of Bologna, City of Vienna, Austrian Ministries of Transport, Innovation & Technology and Economic Affairs & Employment, Slovenian Ministry of Higher Education, Science & Technology, Alcatel, HP, IBM and Telekom Austria.

To request a Sponsorship Proposal, please contact secretariat@eChallenges.org

Pre-Conference Networking Event

IIMC is organising a HAGRID Networking Event on 23 October in The Hague as an eChallenges e-2007 Pre-Conference Event. HAGRID is an EU-funded Initiative focused on increasing the participation of new organisations in EU-funded ICT Research under Framework Programme 7 (FP7-ICT).

This Networking Event will facilitate learning more about FP7-ICT as well as meeting potential partners for future project proposals under upcoming FP7 Calls. Registration for this HAGRID Networking Event is Free of Charge. For more information and to Register for this Networking Event, visit the HAGRID portal at www.hagridproject.net/thehague

Closing Ceremony

The Conference Programme is subject to change at the discretion of the International Programme Committee Chair. You should always refer to the Conference Portal for the most up to date information.

Tours in The Hague

If you wish to take an organised city tour, there are plenty of cycling and walking tours available. There is also a guided city couch tour and a boat trip.

Royal Tour

Den Haag Marketing & Events organise this city sightseeing tour, which is partly by coach and partly on foot. You are introduced to both the modern beach resort and the old fishing village of Scheveningen. The Royal Tour also passes by the palaces of The Hague, including Noordeinde, Lange Voorhout and Kneuterdijk. You will visit Knights' Hall and one of the city's museums. The tour includes a complimentary cup of coffee in a fitting location.

This tour takes place on Thursday and Saturday at 11am and 2pm. It costs €27.50 per person. It is necessary to book the tour in advance with The Hague Marketing & Events, Department Days Trips, Tel: (+31) (0)70 338 58 16, Fax: (+31) (0)70 361 54 59, E-mail: dagtochten@denhaag.com

Boat Trip

De Ooievaart organises Canel tours in The Hague on an Open Boat from May to October. The round trip takes you to Het Lint, China Town and Schilderswijk, the Royal Stables, the Hugendstil houses in which is

Buurtschap 2005 and The Hague Nieuw Centrum, the new centre with its Ministries and exceptional architecture. The Canal Tours run on Friday, Saturday and Sunday, last 1.5 - 2 hours and cost €9.50 per person. It is necessary to buy the tickets in advance from The Hague Tourist Information Office on Hofweg 1 (opposite Binnenhof).

Royal Kilometres

'Royal Kilometres', a walking and cycling tour, will acquaint you with many royal sites in The Hague and Wassenaar. The walk takes you past the Knights' Hall, the gardens of Palace Noordeinde, and the former Palace Lange Voorhout. The cycle tour takes you past De Horsten, the home of the Crown Prince Willem-Alexander and Princess Máxima Zorreguieta.

Shopping in The Hague

The Hague offers a wide range of shopping options, ranging from chains and department stores, to fashion boutiques, specialist shops, antique stores and art galleries.

For Haute Couture, exclusive jewellery and shoe shops, look no further than De Passage, Hoogstraat, Molenstraat and De Plaats, whether to indulge your shopping fantasies or simply enjoy window shopping. De Passage, for example, is a glass-roofed mall, over 115 years old.

The shopping streets of Fahrenheitstraat, Thomsonlaan and Thomsonplein showcase over one hundred shops in the area called Segbroek. There are also many shops in the nearby seaside district of Scheveningen, which is a direct tram ride from the hotels beside the Conference Venue.

eStrategies Roundtables

British Publishers Ltd, one of the eChallenges Media Partners, is organising two stand-alone eStrategies Roundtable events on Thursday 25 October 2007. The roundtables will take place in the Everest room, 2nd Floor of the World Forum Convention Centre. Presenters in these eStrategies Roundtables are invited by British Publishers.

ICT Shaping the Future of Public Services Roundtable will take place at 9am and Technology Enhanced Learning Roundtable will take place at 2pm.

There are a limited number of audience positions available to eChallenges e-2007 delegates. If you are interested in attending the ICT Shaping the Future of Public Services, please contact Edward Taberner at +44 117 916 6542.

If you are interested in attending the Technology Enhanced Learning Roundtable, please contact Christina Martin at +44 117 916 6555.
