Conference Focus

eChallenges e-2010, which takes place in the beautiful city of Warsaw, is the twentieth in a series of annual research conferences focused on bringing together delegates from leading commercial, government and research organisations around the world to bridge the Digital Divide by sharing experiences & increasing awareness of innovative Information Communications Technologies (ICT) research results and applications and identify opportunities for international research collaboration under the ICT Priority of Framework Programme 7 (FP7).

Event Profile

The **eChallenges Conference Series** has an international perspective, typically attracting over 600 delegates from over 50 countries and five continents each year.

Its reputation is based on high quality papers and discussion workshops that showcase innovative ICT research results and applications, whether funded privately, or at national, regional or European level. The participation of representatives of leading government, commercial and research organizations in the conference community ensures a stimulating and high quality networking environment, providing an opportunity to share knowledge and experience with potential research or exploitation partners. Each annual conference places a special focus on host country activities, sectoral and national initiatives and regional success stories.
